Recycling trailer success – thank you Somers!

The Mornington Peninsula Shire has thanked Somers for hosting their recycling trailer over the month of February!

With your help, the Shire collected 4275 kg of clothing and 3658 kg of e-waste from March 2021 to April 2022 – what an achievement!

This has strengthened the Shire’s goal of sending zero waste into landfill by 2030.

The SRA will re-book the Recycling Trailer for The Somers General car park again in a few months, this will aid with the Spring decluttering in Somers.

Somers Recycling Depot (TerraCycle) update

We are phasing out the disposable mask collection from the Somers Recycling Depot @ The Somers General and will replace this with a plastic bottle top lids collection - these can be recycled at the Mornington Resource Recovery Centre (tip). Thank you Lou, for this additional service!

We will continue to collect a small quantity of disposable masks @ Somers Primary School. If you would like us to continue our Masks collection, or have any other “hard to recycle” item in mind, please email info@somers.org.au and let us know

Waste & Recycling Guide

We love the Shire’s handy guide to recycling – each item is listed and it’s easy to follow: [MPSC Recycling Guide click HERE](#)

The Somers Recycling Depot @ The Somers General is really an add-on to this guide, to collect items which would otherwise go to landfill or just be ‘hard to recycle’.

The SRA are actively committed to strengthening local waste management practices and principles to continue to increase the diversion of general waste away from landfill.

We thank you for your continued support.
