

Somers Community Park Proposal

The SRA is excited to be working with the Somers Community Park Project <https://www.facebook.com/somersparkproject/> to bring their exciting proposal to fruition. The SRA has established a new subcommittee for this purpose, consisting of two SRA committee members and two members of the existing Somers Community Park Project. The proposal for the construction of bike tracks and indigenous gardens in Somers is currently with Council, and the SRA looks forward to formalising the project with the community in coming months.
