

TerraCycle – disposable facemasks & additional community recycling

Last month the SRA listed the hard-to-recycle items which Lou continues to collect and send to TerraCycle on behalf the Somers community. Our huge thanks again to Lou!

Collection points are: @ The Somers General back door OR @9 Garden Square, Somers

The Somers Residents Association has partnered with Lou to bolster her existing collections, by purchasing two additional TerraCycle collection boxes. These collections are to focus on some extra hard-to-recycle items such as blister packs (pharmaceuticals), packaging from personal care and beauty products - as well as, importantly, disposable facemasks!!!

A large blue drum has been placed at Somers Primary School to collect disposable facemasks used at the school as part of this additional TerraCycle initiative.

Westernport Auto has proudly sponsored the SRA for this service. Future SRA TerraCycle initiatives are also available to interested businesses. Contact: info@somers.org.au

A big thank you to all involved in facilitating this extra recycling as we continue our aim to foster a sustainable community, and care for our precious environment!

Please put disposable facemasks in the separate tubs (as marked), and all other accepted TerraCycle waste together as part of Lou's collection
